

Daily Routines for Busy Families

A good family routine can be a life saver for many families and their hectic lives. Use these templates and tips to help you craft your family's own unique daily routine

- Do a Brain Dump – Get a handle on all the things you have going on with a good old fashioned brain dump. Just make a master list. Once you have your list, sort them based on your natural family rhythm.
- Write Them Down – Use these templates to write down your routines and place them in a place where you will remember to use them.
- Accommodate Your Family's Natural Rhythm – Your routine is doomed for failure if you don't plan them around your family's natural rhythm. Morning people should have routines that are heavier or more intense in the morning and night owls should have routines that focus on the evening.
- Be Flexible – Your routine will change throughout the year based on your family's schedule and won't be perfect at first. Give them time to evolve and willing to make changes to make them work.
